Fitness First puts safety first with Non-Slip!

A clean and safe floor was achieved by using Non-Slip's 'Sure-Grip Floor Safety Program'.

"Fitness complexes are notoriously hazardous. With a constant traffic flow from showers to workout rooms, pool areas to classes, the floors can get extremely slippery..."

Non-Slip has been working closely with Fitness First centre's nationally to ensure that its clientele have a firm grip as they work off those extra kilos.

Centre's in Sydney and Melbourne have implemented the 'Sure-Grip Safety Program', exclusive to Non-Slip Floor Solutions.

The program involves an initial cleaning and treatment, followed by an ongoing 'program' of maintenance, ensuring that the floors perform to their best whilst under a barrage of heavy traffic.

"We not only work on industrial sites, commercial centre's are becoming well aware of their responsibility to clients and the public."... Jay Ganatra, C.E.O. Non-Slip Floor Solutions.

By continuing to work with Fitness First and other major commercial centre's, Non-Slip Floor Solutions are moving towards their objective of making the industrial, commercial and residential world a safer place, one step at a time.

From Sure-Grip to Stair Treads, Tactiles to Twister, Non-Slip Floor Solutions has a product for your needs.
