Railcorp is on track with Non-Slip!

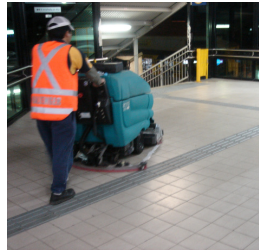

Lidcombe Railway Station, showing before and after treatment, testing and on-going cleaning.

“ It’s a testament to the effectiveness of my program that the relationship between Non-Slip and Railcorp continues to grow...” Jay Ganatra, C.E.O. Non-Slip Floor Solutions

Lidcombe Railway Station is now a safer place to travel with the implementation of Non-Slip’s ‘Sure Grip Floor Safety ’ program.

After 18 months of rigorous testing and scrutiny, Railcorp gave Non-Slip’s Jay Ganatra and his team the go-ahead to treat and maintain its heavily trafficked Lidcombe Station concourse.

“Years of build-up from diesel, brake dust and every-day grime had resulted in a slippery, unsafe floor. By treating the surface and establishing a comprehensive cleaning program, Non-Slip has ensured travelers and workers alike, a safe footing as they go about their daily business”, Ganatra said.

Sure Grip is a safe, bio-degradable product that not only maintains floor traction, but improves grip well after the initial treatment, when maintained using Non-Slips Cleaning Program.

Non-Slip Floor Solutions can make your workplace cleaner and safer with a professional, comprehensive floor treatment and maintenance system.

Slippery floor surfaces in the workplace affect productivity and compromise employee safety. Reassure your staff with the ‘Sure-Grip Floor Safety Program’, exclusive to Non-Slip Floor Solutions.

Don’t trip... Non-Slip.
