Mirvac and Non-Slip. Moving forward in the heart of Sydney!

Mirvac's new Broadway residential development, after being treated with Non-Slips 'Sure-Grip' cleaner.

“ With a strategic piece of forward planning, and with help from Non-Slip, Mirvac has taken steps to ensure that the floors in their new residential site in Broaway will be clean and safe for years to come...” Jay Ganatra, C.E.O. Non-Slip Floor Solutions.

In believing that prevention is better than a cure, Mirvac contracted Non-Slip to treat their newly-laid tiles before urban grime and foot traffic had a chance to take its toll.

With a street level lobby, high traffic walkways and an inside pool area, the new residential development on Harris Street promises to be a hive of activity.

Non-Slip Floor Solutions has assured occupants and visitors a safe floor to walk on for years to come by not only treating the surface, but also training the cleaning staff in its 'Sure-Grip Floor Safety' program.

“Non-Slip's approach to its commitment is total. Our 'Sure-Grip Floor Safety' program ensures that our client's floors are safe long after we've packed up our tools and gone”, says Mr.Ganatra.

A safe floor is as important as a wall that stays upright, and a ceiling that doesn't collapse. Contact 'Non-Slip Floor Solutions' for an answer to your traction concerns.

Don't trip... Non-Slip.
